
Title: The Indenture

Author: Isk

We exist in dangerous times. Where once our lands in Trammel have enjoyed a peaceful existence our homelands are now being threatened by influence and arms from a foreign aggressor. In order to preserve the independent and distinct societies of Trammel it has become necessary to form a Trammel wide union to cut short the potency of Sanctus within our lands. We the land holders and Great Names of Trammel upon signing this indenture agree to join together in the defence of our homelands and those of our neighbours against the threat of Sanctus. With signing this indenture the land holders and Great Names of Trammel agree to provide manpower, logistical and moral support if it falls within their power for the purpose of guarding the distinct and virtuous lands of our fathers against the outsider forces of Sanctus. Starting from the date of the signing and extending indefinitely until a time as it is mutually agreed to disassemble this indenture the undersigned Great Names, bound in friendship and with a common goal agree to keep Sanctus out of Trammel by means of politics or war should it

come to it.

We the Great Names and
land holders of Trammel
agree to this indenture
and promise to fulfill our
obligations to the best of
our abilities.
